Why use SmartLinx® Comprehensive Person Reports?

Generating a SmartLinx® Comprehensive Person Report is the best way to obtain a complete picture of an individual. It searches virtually all the diverse public records LexisNexis has online. It provides an easy-to-browse report that links all available public records information found on a person nationwide—just click and move to data on assets, bankruptcies, judgments and liens, licenses, and more. SmartLinx also conducts more than 200 checks to alert you to potential issues.

The vast coverage of the LexisNexis® Public Records collection gives you sources not readily available from other providers or through the open Web. And the sophisticated SmartLinx linking and reporting technology can help you spot connections that might otherwise remain hidden. Imagine the difference this could make to your case, transaction or research!

Here's how to generate a SmartLinx Comprehensive Person Report via Lexis Advance®:

- ① Select **Public Records** from the pull-down list.
- ② Click **Comprehensive Person Report**.
- ③ Fill in the facts you know—name, city, state, ZIP, for example—to increase the likelihood of your best results displaying first. The search form gives you fill-in-the-blank simplicity and true searching power. You can mine data in ways impossible with Boolean searching.
 - LexisNexis® proprietary data-linking technology recognizes similar names, nicknames, maiden names, and spelling variations, and correlates the right information to the right people.
 - **Find Similar-Sounding Last Names and Nicknames:** Check either of these boxes and your search will include these names.
 - **Alias Last Name:** Find this option on many search forms.
 - **Relatives' Names:** Add this option to further refine your results.
 - **Is the name fairly common?** Add an age range, alias name, relative name, previous state(s), etc.
 - **Have the SSN or LexIDSM?** For best results, search with one of these (enter SSN with or without dashes).
 - Further refine results and pinpoint individuals with the following options:
 - **Radius:** Add nearby towns to your search automatically by choosing **Radius** and your desired distance (default is 30 miles).
 - **Previous City and Previous State:** Find people by using prior addresses.
 - **Age Range:** If you're not sure of an individual's age, estimate it with this helpful option.
 - Check the **Strict Search** box to retrieve results that more closely match the name and/or address entered.
